EDUCATION

-
- The Hong Kong University of Science and Technology (HKUST)** — MSc in Finance **Sep 2026 – Dec 2027**
- The University of Hong Kong (HKU)** — BSc in Molecular Biology & Biotechnology **Sep 2021 – Jul 2026**
- Exchange: University of Konstanz, Germany (HKUWW).
 - Sports: Volleyball Team; Softball Team.
 - Coursework: Biotechnology Industry & Entrepreneurship (Grade A) — built a commercial assessment and investment pitch on Intellia Therapeutics (NASDAQ: NTLA), a clinical-stage gene-editing company, covering market opportunity, competitive landscape, and pipeline positioning.

WORK EXPERIENCE

-
- HKU Faculty of Science** — Undergraduate Research Assistant — Molecular Aging Biology **Sep 2025 – Dec 2025**
- Ran a PRISMA-aligned systematic review of molecular biomarkers and conserved longevity pathways (TOR, FoxO, Nrf2, autophagy) in aging and stress response, screening literature against defined inclusion and quality criteria.
 - Assembled and curated a structured, searchable database of 41 studies across 23 species, coded by aging hallmark (proteostasis, oxidative/mitochondrial, nutrient-sensing), molecular pathway, and method to enable synthesis and meta-analysis.
- GUTolution** — Innovation Consultant Intern — Automation Solutions Engineer **Jun 2025 – Aug 2025**
- Conducted competitor and market analysis (financial, regulatory, operational) and supported B2B investor pitch decks with market sizing and growth projections.
 - Performed scientific due diligence to validate diagnostic reference ranges, extending an existing random-forest diagnostic model to cover six additional bacterial strains.
 - Built an AI-driven client outreach tool from scratch (API scraping, LLM customization), cutting cold-email generation time by ~80x; shipped an LLM dietary-recommendation feature into the client-facing diagnostic report.
 - Bridged R&D and marketing by standardizing diagnostic reports for B2B and B2C clients and streamlining the automated report pipeline (new metric UI), cutting report-generation time from ~30 to ~5 minutes (~83%).
- Mekong Tours Hong Kong** — Analytics Intern **Jun 2022 – Aug 2022**
- Consolidated 500+ data points from CRM, ERP, and industry sources into a regression-based demand-forecasting model to support sales planning.
 - Co-developed Tableau dashboards on profitability and retention with a 3-person team; two recommendations were adopted by leadership.

PROJECTS & COMPETITIONS

-
- Bloomberg Global Trading Challenge** — Team Lead, Global Equity Competition
- Led a 5-person team managing a US\$1M virtual portfolio over 5 weeks; ranked 758th of ~2,700 teams globally (top 30%).
 - Executed 39 long positions across 36 US and Taiwan equities around an AI-infrastructure thesis (semiconductors, data storage, connectivity hardware) with a smaller defensive sleeve in staples, healthcare, and energy; best performers included Western Digital (+20.6%) and NVIDIA (+13.0%).
 - Screened candidates on the Bloomberg Terminal (EQS) using valuation, earnings-momentum, and volatility metrics; managed downside with pre-set trailing stop-losses, applying rule-based exits to cap losses and protect gains.
- Sector-Specific Equity Research Platform** — Independent Project
- Engineered an end-to-end equity screening platform applying a sector-weighted, cross-sectional five-factor model (earnings yield, 12–1 momentum, gross profitability, Sloan accruals, idiosyncratic volatility) to rank equities into a buy/watch shortlist.

ADDITIONAL INFORMATION

-
- **Languages:** English (Native), Cantonese (Native), Mandarin (Intermediate), Vietnamese (Basic).
 - **Financial & analytical:** Financial modeling and valuation (DCF, sensitivity analysis, regression, forecasting), Bloomberg Terminal, advanced Excel (pivot tables, VBA, Power Query), PowerPoint, Tableau, R and Python (basic).
 - **Automation & AI:** Process automation (OCR, NLP, API integration), LLM customization and AI-assisted workflows (Claude Code); custom 3-stage AI research pipeline for financial-document parsing, extraction, and auditing.
 - **Volunteering:** Self-organized Charity Clothing Drive (2020); Chiang Rai home construction (2018).
