EDUCATION

The Hong Kong University of Science and Technology (HKUST) - MSc in Finance **Sep 2026 – Dec 2027**

The University of Hong Kong (HKU) - BSc in Molecular Biology & Biotechnology **Sep 2021 – Jul 2026**

- Second Upper Class Honours.
- Exchange: University of Konstanz, Germany (HKUWW).
- Sports: Volleyball Team; Softball Team.
- Coursework: Biotechnology Industry & Entrepreneurship (Grade A), incl. pitch on Intellia Therapeutics (NTLA).

WORK EXPERIENCE

Kingstone International Advisors Limited - Equity Research Analyst Intern **Oct 2026 – Present**

- Joined in Oct 2026 to cover US equities in targeted sectors: fundamental analysis and review of SEC filings.
- Build DCF and comparable-company models to support initiation notes and investment decks.
- Pitch stock ideas to inform portfolio holdings and re-evaluate existing positions for under- or outperformance.
- Track SFC rule updates, monitor holdings against concentration limits, and maintain audit-ready trade records and bookkeeping across client accounts; automate recurring compliance and reporting in Excel VBA and Python.
- Working towards SFC licensing for Type 1, 4 and 9 Regulated Activities (registered for HKSI exams).

HKU Faculty of Science - Undergraduate Research Assistant - Molecular Aging Biology **Sep 2025 – Dec 2025**

- Ran a PRISMA-aligned systematic review of aging biomarkers and longevity pathways (TOR, FoxO, Nrf2, autophagy), building a coded database of 41 studies across 23 species for meta-analysis.

GUTolution - Innovation Consultant Intern - Automation Solutions Engineer **Jun 2025 – Aug 2025**

- Conducted competitor and market analysis (financial, regulatory, operational) and supported B2B investor pitch decks with market sizing and growth projections.
- Performed scientific due diligence to validate diagnostic reference ranges, extending an existing random-forest diagnostic model to cover six additional bacterial strains.
- Built an AI-driven client outreach tool from scratch (API scraping, LLM customization), cutting cold-email generation time by ~80x; shipped an LLM dietary-recommendation feature into the client-facing diagnostic report.

Mekong Tours Hong Kong - Analytics Intern **Jun 2022 – Aug 2022**

- Consolidated 500+ data points from CRM, ERP, and industry sources into a regression-based demand-forecasting model to support sales planning.
- Co-developed Tableau dashboards on profitability and retention with a 3-person team; two recommendations were adopted by leadership.

PROJECTS & COMPETITIONS

Summit Therapeutics (NASDAQ: SMMT) Equity Research Note - Independent Project **Sep 2026**

- Authored a Neutral-rated review of a ~US$14bn single-asset oncology company, assessing Phase III survival data for its lead drug against Keytruda across Chinese and Western patient subgroups (31 sources cited).
- Analyzed cash runway and share dilution from SEC filings and set explicit hazard-ratio thresholds for changing the rating ahead of the next Phase III readout and FDA decision.

Bloomberg Global Trading Challenge - Team Lead, Global Equity Competition **2025 – 2026**

- Led a 5-person team managing a US$1M virtual portfolio over 5 weeks; ranked top 30% of ~2,700 teams globally.
- Executed 39 long positions across 36 US and Taiwan equities around an AI-infrastructure thesis (semiconductors, data storage, connectivity hardware) with a smaller defensive sleeve in staples, healthcare, and energy; best performers included Western Digital (+20.6%) and NVIDIA (+13.0%).
- Screened candidates on the Bloomberg Terminal (EQS) using valuation, earnings-momentum, and volatility metrics; managed downside with pre-set trailing stop-losses and rule-based exits.
- Registered for the 2026 challenge (results pending).

Sector-Specific Equity Research Platform - Independent Project

- Engineered an end-to-end equity screening platform applying a sector-weighted five-factor model (earnings yield, 12–1 momentum, gross profitability, Sloan accruals, idiosyncratic volatility) to rank stocks into a buy/watch list.

ADDITIONAL INFORMATION

- **Languages:** English (Native), Cantonese (Native), Mandarin (Fluent), Vietnamese (Basic).
- **Financial & analytical:** Financial modeling and valuation (DCF, sensitivity analysis, regression, forecasting), Bloomberg Terminal, advanced Excel (pivot tables, VBA, Power Query), PowerPoint, Tableau, R, Python.
- **Automation & AI:** Process automation (OCR, NLP, API integration), LLM customization and AI-assisted workflows (Claude Code); 3-stage AI pipeline for financial-document parsing, extraction, and auditing.
- **Interests:** Volleyball, baseball, basketball, watch collecting; self-organized charity clothing drive (2020).
